XD Series Desktop Monitors

Cerwin-Vega! XD desktop monitors are the next level performance in compact sound systems. Whether you are creating media, gaming or being entertained - the superior sound of the Cerwin Vega! XD line will maximize the experience. Unlike plastic multimedia plastic speakers, XDs wooden cabinets ensure tight bass - essential for accurate media creation. Playing games? Let XD bring the roaring engines and exploding bombs to life. Watching videos; get goose bumps as the XD tweeter's crystal clarity delivers every single breath. Listening to the latest dance track; FEEL the music by engaging the Vega Bass enhanced EQ feature. With a total of three desktop models to choose from; right for any budget or footprint, and each with multiple input connections for easy setup. Add the XD8S Subwoofer with the desktop remote for extended low frequencies and convenient system control.

Features:

- The perfect companion for your computer
- Compact size without "compact" sound
- Appearance matches laptops and LCD monitors
- Magnetically shielded to prevent interference
- Rich and natural sound of a real wood enclosure
- 4" woofer / 3/4" tweeter
- 40 watts amplifier with built in crossover
- Perfect for music, gaming and media production

XD-3

199.00

Pair, 3" woofer / 3/4" tweeter • 15 watts per channel amp with built in crossover • Weight: 6.5 lbs / 2.9 kg • Dimensions (HxWxD): 8" x 5.5" x 6.5" / 203 mm x 140 mm x 165 mm

Price is per pair.

XD-4

275.00

Pair, 4" woofer / 3/4" tweeter • 40 watts amplifier with built in crossover • Frequency Response: 75Hz – 21kHz • Power Output (Watts): 40 • Weight: 13.6 lbs / 6.2 kg • Dimensions (HxWxD): 10.63" x 15.70" x 11.81" / 270 mm x 400 mm x 300 mm

Price is per pair.

XD-5

310.00

Pair, 5" woofer / 1" tweeter • 50 watts amplifier with built in crossover • Frequency Response: 60Hz – 21kHz • Power Output (Watts): 50 • Weight: 17.4 lbs / 7.9 kg • Dimensions (HxWxD): 12.01" x 18.50" x 13.39'" / 305 mm x 470 mm x 340 mm

Price is per pair.

XD-8S

310.00

Efficient high excursion 8" subwoofer • The perfect companion for your computer's sound system • Compact size delivers large Cerwin-Vega sound • Includes desktop remote to control the entire system volume • 80 watts amplifier with adjustable crossover and phase • Frequency Response: 35Hz – 255Hz • Amplifier Power: 80 W RMS • Weight: 18.5 lbs / 8.4 kg • Dimensions (HxWxD): 17.32" x 7.09" x 14.96" / 440 mm x 175 mm x 380 mm

P-Series Portable Active Loudspeakers

Cerwin-Vega has developed a complete Public Address sound system into a single integrated product. The full-range Cerwin-Vega! P-Series combines an amplifier, mixer and loudspeaker into one lightweight package that is designed for easy setup and is ideally suited for portable applications. P-Series is flexible in connectivity and setup which caters to a wide assortment of sound amplifications applications such as:

- Music and sound playback during social and house of worship gatherings
- Speech and vocal presentations by entertainers, demonstrators and instructors
- Musical instrument amplification for electronic keyboards and guitars
- Live sound amplification for complete audience coverage and monitors for performers
- Mobile/Professional DJ's wanting a compact system cable of integrating features which will help them manage hours of entertainment.

P1000X

1075.00

The P1000X is a two-way, bi-amped, full-range bass-reflex speaker. It employs a 10-inch woofer and a high-frequency compression driver, powered by a custom Class-D amplifier • System Configuration: Active 2-way full-range, bass reflex • Frequency Range (-10 dB): 51 Hz – 22.5 kHz • Frequency Response (±3 dB): 61.0 Hz – 20.6 kHz • Nominal Coverage (-6 dB): 90° Horizontal, 65° Vertical • Maximum SPL(1W @ 1m): 128 dB • Amplifier Type: Class D • Amplifier Rating: 1000 Watts Dynamic • Low Frequency Driver: 10" • High Frequency Driver: 1 " diaphragm, 1" exit • Connectors: CH 1&2 - Neutrik™ XLR/TRS inputs, CH3 Dual " TS THRU 1&2 - XLR, MIX XLR • Indicators: Signal/Clip, Power, Limiter, Protect • Enclosure: Polymer cabinet, flush waveguide • Grille: 18 gauge, perforated steel • Mounting & Suspension: 35mm pole socket 6 x M10 suspension • Operating Temperature: -20° to 55°C • Controls: Gain/Level (Input) - per channel); Line/Mic-D.I. (Input – per channel); Enhanced EQ (On/Off); Vega Bass Boost (On/Off); High Pass Filter (On/Off); Front Light Limiter (On/Off); Main Volume (Output); Remote (Optional); AC Input Voltage (220V-240V / 100V-120V); Power (On/Off)

P1500X

1185.00

Class-D bi-amplifier design and switching power supply delivers premium performance in an efficient and light-weight design • 600W program, 1200W peak performance • Built-in 3-channel mixer with easy to identify controls, and intuitive layout for fast setup and minimal connections • Wide variety of input capabilities including both balanced and unbalanced sources, and powered / un-powered microphones • Loop, mix and direct outputs for fast 'daisy-chain' connections for expanded sound systems • Active indicators to quickly assure proper operation and optimal performance • Includes an array of essential protection circuits to reduce down-time and prevent component damage • Proprietary Cerwin-Vega! Hemi-Conical Waveguide gives smooth on and off axis frequency response • User controlled digital filters and dynamic EQ allow the system to be tuned to the exact requirements of the event • High Frequency Drivers – tyethylene terephthalate compression driver provides natural sounding instruments and vocals • Low Frequency Drivers – Metal frame, reflex loaded woofers achieves the accurate bass response, and punch you expect from a Cerwin-Vega! system • Angle-adjustable pole mount socket, side-wedge shaped enclosure and M10-threaded suspension points support a variety of permanent and portable setups

P1800SX

1499.00

Class-D bi-amplifier design and switching power supply delivers premium performance in an efficient and light-weight design • 1000W program, 2000W peak performance • Direct-firing subwoofer features internal bracing to provide additional support during heavy sound levels • Active indicators to quickly assure proper operation and optimal performance • Includes an array of essential protection circuits to reduce down-time and prevent component damage • Proprietary Cerwin-Vega! Hemi-Conical Waveguide gives smooth on and off axis frequency response • User controlled digital filters and dynamic EQ allow the system to be tuned to the exact requirements of the event • Low Frequency Drivers – Metal frame, reflex loaded woofers achieves the accurate bass response, and punch you expect from a Cerwin-Vega! system • Angle-adjustable pole mount socket, side-wedge shaped enclosure and M10-threaded suspension points support a variety of permanent and portable setups

iNTENSE! V2

The Intense series from Cerwin-Vega! has established a well-deserved reputation for providing impressive sound at an affordable price. How do you enhance a leading product in its class? Improve the product components, sound quality AND lower the price! Introducing the new Intense! V2. Perfect for PA applications such as live sound, program playback, and DJ systems -- it can be installed in facilities, venues and clubs – yet it is fully portable for sound on the go.

So what's New?

Stronger drivers by beefing up the build quality with the addition of more steel.

Enhanced durability by upgrading the cabinet construction with internal bracing.

Better performance is achieved by increasing the size of the magnets on the compression drivers.

Improved dependability from a new positive temperature coefficient (PTC) thermistor that protects the tweeter. This component acts as a self-repairing fuse allowing the speaker to return to normal operation once the input fault is corrected.

FEATURES: • 34 mm compression drivers • Steel frame woofers • PTC thermistor protected tweeter • Black carpet finish • 15 mm reinforced cabinet • Speakon® and 1/4" inputs • All metal handles with stamped CV logo

INT-152V2

435.00

Full Range 8-Ohm, 2-way, 15-inch passive reflex speaker • RMS 200 watts, Program 400 watts, Peak 800 watts, Calculated Maximum Output Full Range 124 db • Frequency response: 64Hz to 19.8kHz • Suited as stand-alone sound reinforcement solution or for augmenting with Int-118S subwoofer • Carpeted finish, weight 57.7 lbs, 26.2 kg

VEGA!BASS Folded Horn Subwoofers

Cerwin-Vega! folded horns, on average, produce 6dB more output at 1 watt than a dual 18" vented box, resulting in 4 times the output with half the number of drivers. Costs are drastically reduced due to the need for fewer cabinets which are able to deliver a superior level of clean clear bass, and fewer amps are needed. The net result is loud sub bass that moves enough air to blow the hairpiece off the competition.

JE-36C — 935.00

18" Folded Horn w/ 3" Voice Coil & redesigned cabinet • Frequency Response: 35 Hz - 300 Hz • Peak Power Handling: 1000 watts • Program Power Handling: 500 watts • Max SPL: 136 dB • Nominal Impedance: 8 Ohms • Sensitivity (1w/1m): 106 dB • Suggested Crossover Frequency: 60Hz to 160Hz Low Pass • Connections: 1/4"Phone, Neutrik Speakon™ • 18" Woofer with 3" Voice Coil • Durable Multi-Ply Construction • High Quality Black Carpet for Durability. Includes casters.

EL-36C — 1060.00

Structural Design Series

The SDS-525 is equipped with an adjustable bracket to accomodate both wall and ceiling installations. The bracket with the circular adapter is intended for ceiling mounting to a threaded rod and offers a maximum tilt angle of 60°. Without the circular adapter the bracket can be screwed directly to the wall with a maximum tilt angle of 45°.

Specifically designed for professional applications including foreground and background music playback. Small, high-impact, polyresin cabinets with sleek contours and durable metal grilles. Push terminal speaker connections. Weather-resistant. Master cartons contain three pairs.

Sold in pairs. Prices are per pair.
